

SMOC Club Night – October Night-O

As the nights were drawing in during October it seemed like the perfect time to try out a bit of Night Orienteering. Having just helped update the map of Aspley Heath in preparation for our upcoming regional event in January, I had the idea to extend our club night season. I planned 2 courses: short which was about 1.5km and medium which was slightly harder and just over 2km. Ten SMOCies donned headtorches on a very mild and dry evening and found that it was quite an adrenaline rush! It was so mild that we didn't really

need the hot chocolate that I'd brought along but we had some anyway.

We are hoping to put on another night-O club night in November so watch this space...
