

FREYA ASKHAM WINS EAOA BILL STEVENS AWARD 2022

SMOC's own Freya Askham was presented with the East Anglian Orienteering Association's Bill Stevens trophy at our recent Campbell Park event.

This trophy has been awarded by the EAOA since 1987, in memory of a stalwart of the association. It is given to individuals who have made a significant contribution to orienteering in the region. In Freya's case, the trophy was awarded in recognition of her hard work as the Organiser of the 2022 British Middle Distance Championships, which were held at Rushmere Country Park last March. The event ran like clockwork and received many positive comments from orienteers from across the country. This was in

large part down to Freya's commitment and dedication to the task, which had been made more difficult by Covid related cancellation in 2021, and uncertainties due to the resurgence of the virus in late 2021. This award is richly deserved. Well done Freya from everyone in SMOC!
